Objective: . I am currently a graduate student for an MS in Mental Health Counseling at Chadron State College and will graduate in 2027. I will work in my home state of Wyoming, where there is a need for mental health services. I plan to establish a practice that can help people flourish.

Relevant Skills:

- Creating curriculum and teaching wellness skills in SEL courses; coaching students to consider the strengths and resources they already have.
- Managing Customer Service, including orders and complaints, at our small artisan bakery
- Inclusive Education Specialist for our daughter, Eleanor. Included finding and creating visual and tactile resources for education.
- Communication expert – seeking always to understand members of an IEP team when disagreements occur, and at times using data and patience in asking them to consider another view.
- Teaching skills -- including listening, research, analysis, technical writing, and asking good questions.
- Advocacy – using a strengths-based approach in creating action plans. Using research to create the best educational opportunities for all students.
